

EMORY'S MEMORY GAME

PATH TO 12

WHAT YOU NEED:

- NUMBER CARDS 1 TO 12 (CUT THEM OUT AND MIX THEM UP!)

HOW TO PLAY:

1. MIX UP THE NUMBER CARDS PLACE THEM FACE DOWN ON THE PLAYING SURFACE.
2. PLAYER 1 STARTS BY TURNING OVER CARDS TO REVEAL THE NUMBERS IN ORDER, STARTING WITH 1, THEN 2, AND SO ON.
3. AS THE PLAYER TURNS OVER THE CORRECT NUMBER, THEY KEEP GOING.
4. IF THE PLAYER MAKES A MISTAKE, ALL CARDS GET TURNED BACK OVER - IN THE SAME SPOT.
5. IT'S NOW THE NEXT PLAYER'S TURN TO TRY!
6. KEEP TAKING TURNS UNTIL SOMEONE SUCCESSFULLY TURNS OVER ALL THE NUMBERS FROM 1 TO 12 IN ORDER.

EACH TIME YOU PLAY, YOUR BRAIN IS BUILDING A MEMORY OF WHAT HAPPENED AND WHERE—THIS IS CALLED EPISODIC MEMORY! CAN YOU REMEMBER THE ORDER AND LOCATION TO COMPLETE EMORY'S CHALLENGE?
